EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Wannisky on 16 October 2007.

The application has been amended as follows:

Replace the title with --Image forming apparatus using hypochromatic toner and hyperchromatic toner--;

in claim 1, line 2, replace "capable of" with --for--; and
in claim 1, line 5 remove "being".

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose an image forming apparatus wherein, in an image area in which hyperchromatic toner and hypochromatic toner are mixedly present, when the recording rate of the hyperchromatic toner is 1/16, a minimum size of a toner image of the hyperchromatic toner is 50 microns or less on the transferring medium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Ayaki et al. (JP 2004-133381) discloses a $L^*a^*b^*$ color system. (Not prior art under 35 USC 102)

Ayaki et al. (US 6,996,358) disclose the claimed relationship between the size and recording rate of the hyperchromatic toner. (Not prior art under 35 USC 102)
